- Power BI reporting option
- ISO27001 information security certificate

Excellent user experience:

- Login with SSO
- Easy-to-use mobile application
- Complete the whole process in the app
- Transparent process
- Quality customer service

Case study: Nortal

Nortal – 10 countries, one system

Nortal is an international IT consultancy with 2,000 employees and operations in 15 countries. They adopted Bezala to unify expense management across the entire group.

Today, Bezala is live in 10 Nortal countries — and expanding.

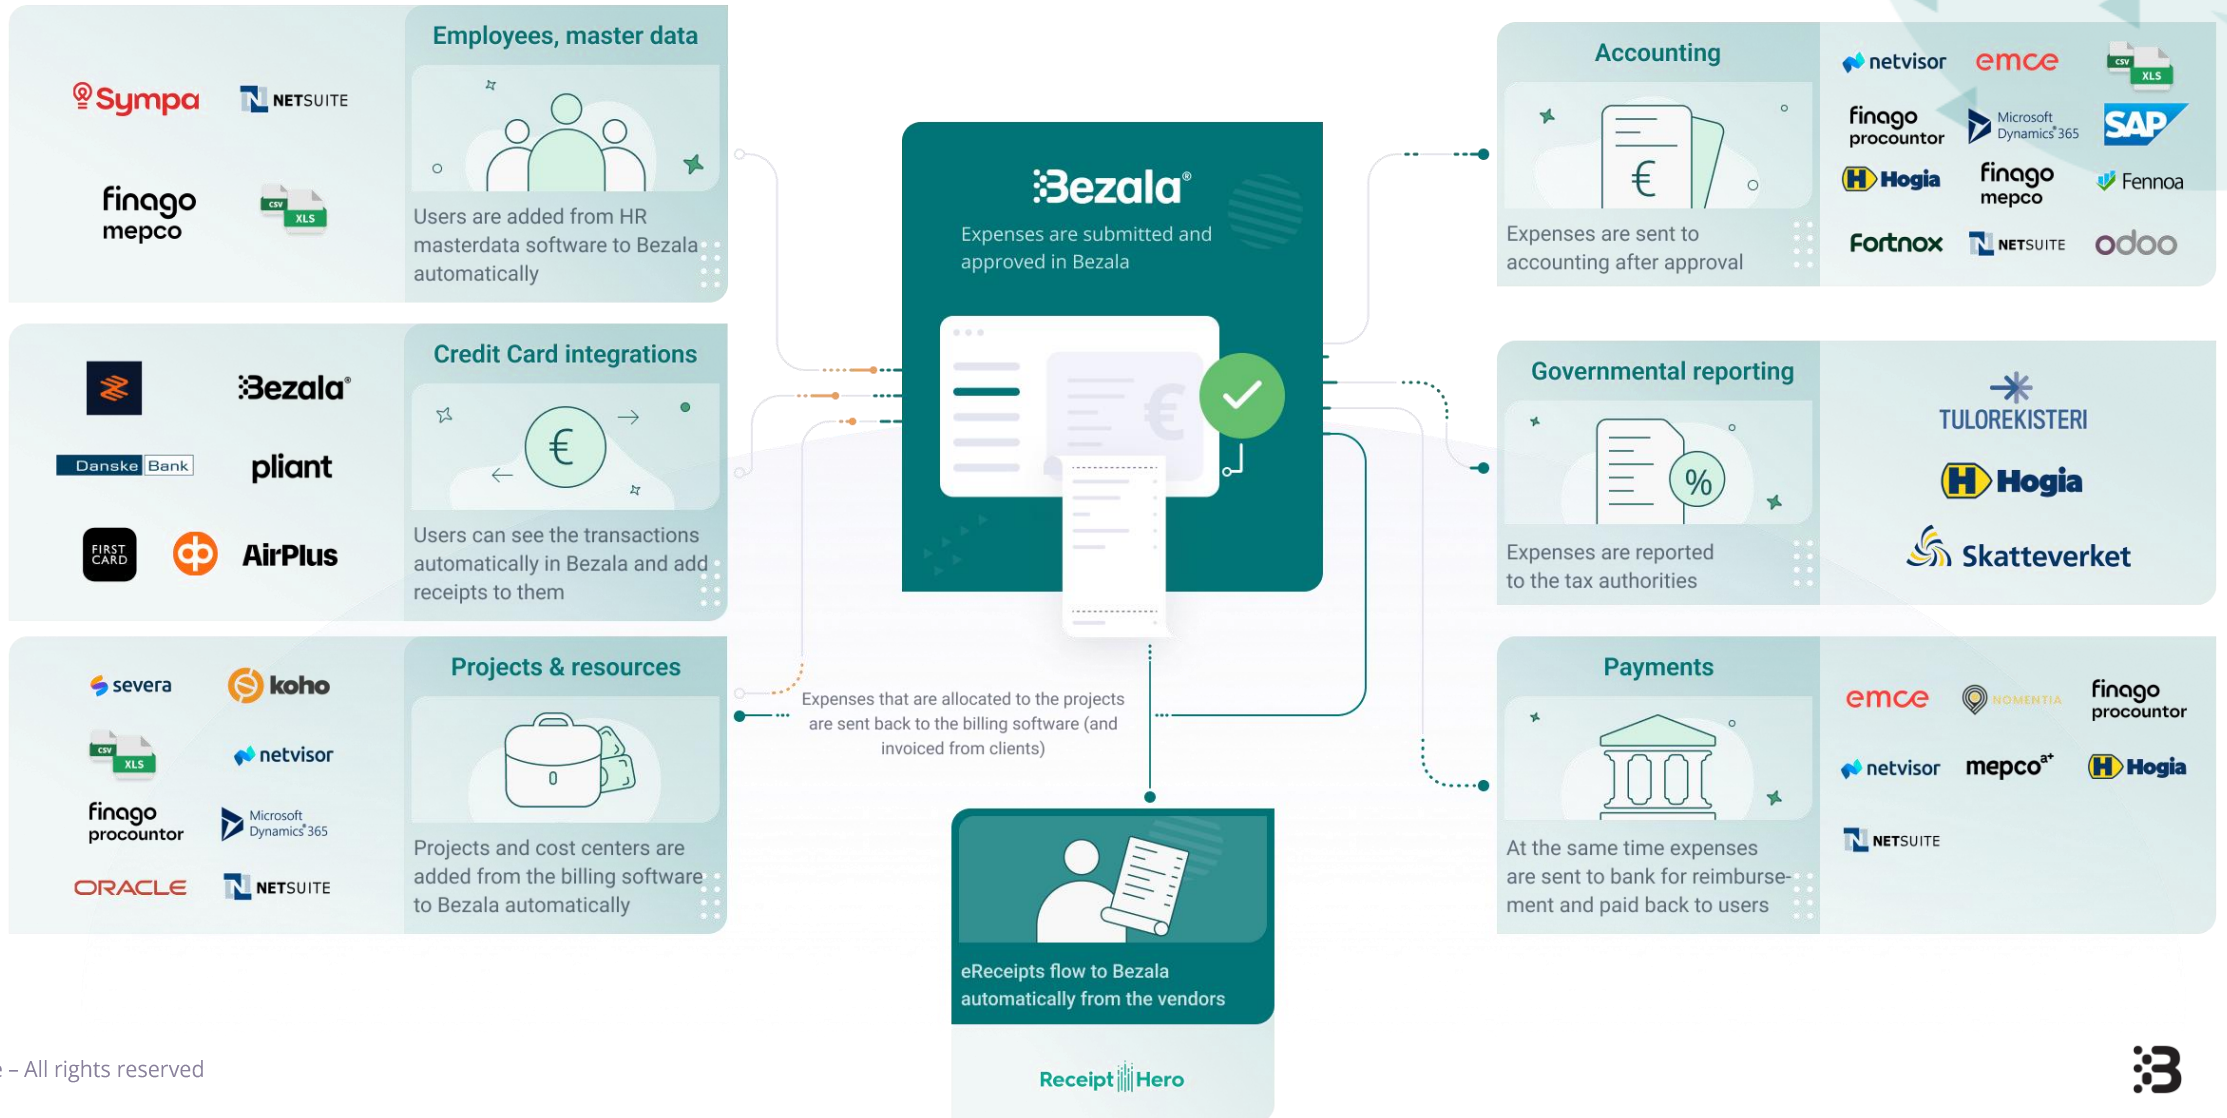

"The mobile app is the number one thing. When you open it, it guides you forward — you simply can't go wrong. We never had to separately train our staff to use it."

Jonna Kähkönen, Development Manager, Nortal

Integrations

Bezala Card

Card management and receipt processing in one place – everything you need for expense management!

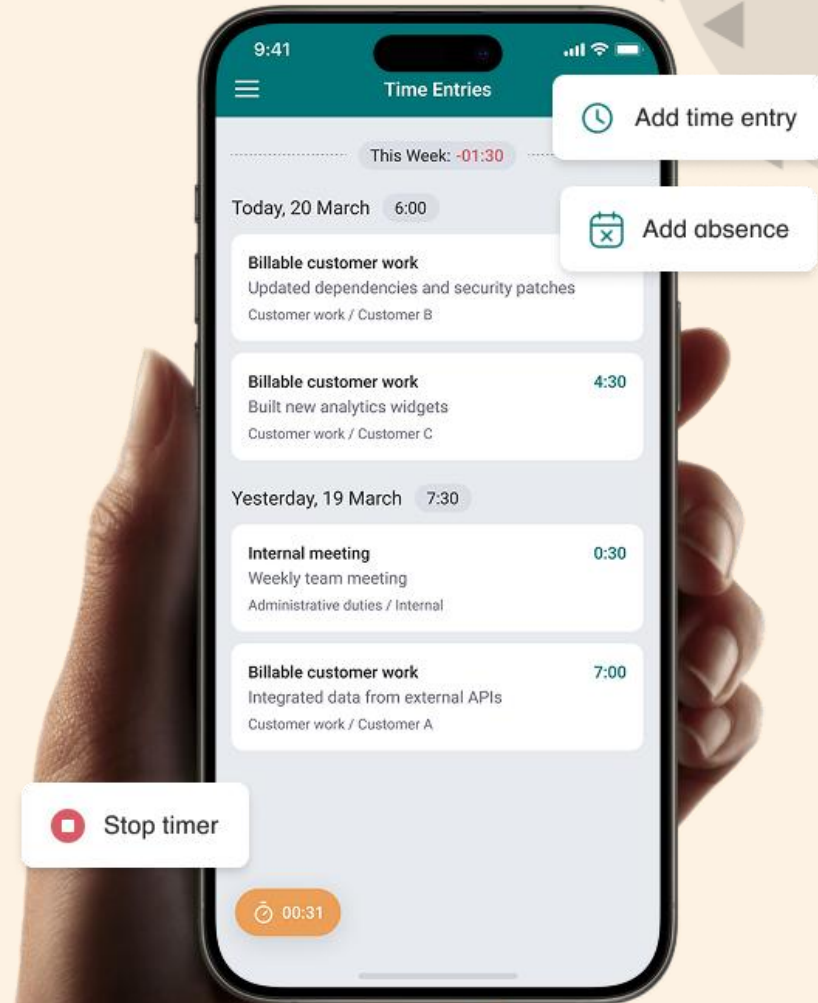

- 📄 Real-time reminders of missing receipts
- 🏠 Cost efficient
- 🔑 Easy to manage and order new cards

Simplify time tracking and attendance

Work time

- Flextime balance calculated automatically (for part-time employees too)
- Collective agreement settings: Configure rules that often stem from collective agreements, including overtime, additional hours, weekly overtime, Sunday work, public holiday work, and additional leave
- Country-specific public holidays handled automatically

Simplify time tracking and attendance

Absences

- Employees can see their remaining leave days and submit requests easily
- All absence types covered: absence types can be configured per company
- Approvers are assigned by absence type — annual leave goes to the line manager, extended absences to the payroll team

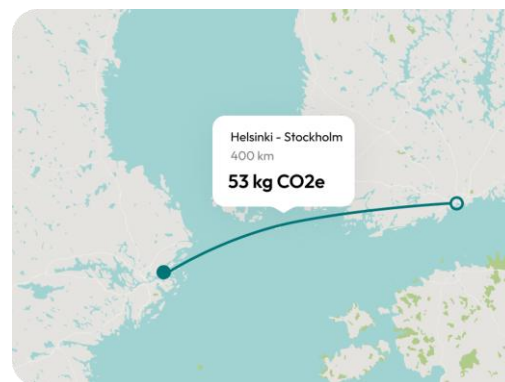

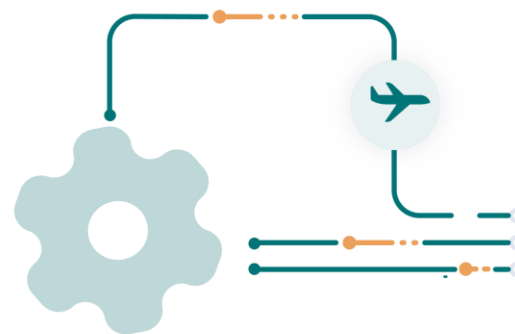

Project time

- Allocate hours directly to projects and tasks
- Timer functionality
- Track your and your subordinates' billing rates in real time
- Only relevant information is shown: Each employee sees their own entries and only the projects and tasks they are assigned to
- Synced with working hours: Project hours logged by an employee are automatically reflected in their flextime balance

Easiest Way to Calculate Emissions

- You can automate emission calculation of all expenses added in Bezala – at no additional charge.
- In mileage reimbursements, emissions are calculated based on the fuel type of the vehicle.

A smartphone screenshot of a 'Receipt' form. The form is titled 'Receipt' and has a teal header. It contains the following fields:

- Purchase type: Travel tickets
- Vehicle: Airplane
- Distance (km): 400
- Number of passengers: 1

Below these fields is a 'Summary' section with a table:

Taxable	277.55 EUR
VAT	0.00 EUR
Total	277.55 EUR
Emissions estimate	53 kg CO ₂ e

At the bottom of the form are two buttons: 'Save as draft' and 'Submit'.

Benefits for employees

- The fastest way to add receipts and travel expenses
- Complete the whole process in mobile app or browser based app
 - No need to separately calculate driven distances in different window (Google Maps integrated to the software)
- Add receipts easily
 - Take a picture with the app, add PDFs or send from email
 - Receipt scanner (OCR) reads the information from the receipt
 - Accounting number is suggested based on the provided description of the expense
- The reimbursements are paid within 1–7 days

Benefits for accountants

- Checking selected accounting accounts made easy
 - See the information on a voucher and receipt picture at a glance
- All the receipts are sent to accounting using one channel
- Automated selection of accounts
 - When the voucher comes for the accountant to review, it already contains the proposed accounting account, the cost center information and the list of persons who participated in the representative meetings

No need to manually remind employees to file the receipt

- Automatic reminders are sent → the receipts are in the accounting even before you receive the credit card bill
- Automatically created bank transactions from reimburseable expenses

You only pay for active usage

References

"The onboarding of Bezala went smoothly and the process all the way from creating the expenses to payment is smooth. Reminders are sent for expenses pending approval, which speeds up the reimbursement of expenses to employees. The customer support has worked excellently, and contacts are responded to quickly."

Kati Manninen
HR Manager

"Bezala has significantly accelerated our financial processes. Checking and paying expenses is easy, and our employees appreciate the easy way of working. The athletes have been very satisfied with the use of Bezala and especially praised that it has speeded up the reimbursement processes."

Mikko Kivi
Chief Financial Officer

"Best thing in Bezala is that it speeds up the invoice circulation. Now the credit card receipts are in the accounting before credit card company has sent us the bill. I'm very satisfied. Our employees have accepted the system with joy."

Virpi Mahlavirta
Accounts Payable Manager
